SOLAS Session 11: Deformity

Does Adding Bone Mineral Density To Gap Score Help Predict Mechanical Failure In Adult Spinal Deformity Surgery?

G. Mundis¹, R. Hoel¹, R. Eastlack¹, F. Rios², M. Jelousi¹, T. Iannacone¹, S. Spierling¹; ¹San Diego Spine Foundation, San Diego, CA/United States of America, ²San Diego Spine Foundation, Del Mar/United States of America

Minimally Invasive Lateral Lumbar Interbody Fusion For Adult Spinal Deformity: Efficacy And Complications According To Mislak Classification

D. Batheja, B. Balain, M. Ockendon; Spinal Disorders, The Robert Jones and Agnes Hunt Hospital,, Syaq/United Kingdom

High Radiation Burden Of Minimally Invasive Approaches To Adult Spinal Deformity

J. Godzik¹, G. Mundis², C. Mulholland³, C. Walker³, J. Turner³, J. Uribe³, R. Eastlack²; ¹Barrow Brain and Spine, Phoenix, AZ/United States of America, ²San Diego Spine Foundation, San Diego, CA/United States of America, ³Barrow Neurological Institute, Phoenix, AZ/United States of America

Comparative Analysis Of Lateral Access Approach On Segmental And Lumbar Lordosis: A Meta-Analysis And Systematic Review

J. Mao¹, A. Khan², E. Pezzino², T. O'Connor², J. Agyei², J. Mullin², P. Jowdy², J. Pollina³; ¹Philadelphia College of Osteopathic Medicine, Philadelphia, PA/United States of America, ²Neurosurgery, University At Buffalo, Buffalo, NY/United States of America, ³Neurosurgery, University At Buffalo, Williamsville, NY/United States of America

Coronal Balance In Degenerative Scoliosis Treated With Minimally Invasive Anterolateral Spinal Deformity Surgery

C. Walker¹, J. Turner¹², J. Uribe¹; ¹Barrow Neurological Institute, Phoenix, AZ/United States of America, ²Barrow Brain and Spine, Phoenix, AZ/United States of America
